Profile

I am a skilled backend software engineer with a focus on data analysis. My expertise lies in utilizing Python, particularly with the Django and Flask frameworks, as well as Java with the Spring Boot framework. I also have knowledge of R for data analysis and JavaScript. My proficiency extends to querying and manipulating databases, both structured and non-structured, such as MySQL, PostgreSQL, and MongoDB. As an individual, I am confident, passionate, and dedicated, with a strong aptitude for research and exceptional communication skills.

Professional Experience

2022/06 – 2023/07

Software Trainee

Lagos, Nigeria

H&M

- Backend development with use of Java/SpringBoot and Python/Django to provide functional APIs
- Frontend development for web application with the use of HTML5, CSS and ReactJS
- Identified and resolved build and deployment issues, ensuring a smooth and reliable CI/CD pipeline.
- Developed strong problem solving skills through extensive practice and participation in online coding challenges.
- Developed architectural requirements of a system with UML, generating the use case diagrams, class diagrams, sequence diagrams and activity diagram
- Drafted software requirements and managed software design and implementation.

Skills

Programming languages(s): Java, Python, Javascript

Programming Framework(s): Springboot, Django, Flask

Web Technologies: React, HTML, CSS, JavaScript.

Methodologies: Agile - TDD

Database: MySQL, MongoDB, PostgreSQL

Source Control: Git(GitHub)

Development Operations: AWS, Azure, Jenkins

Languages

- English
- Yoruba

Interests

- Technology
- Gaming
- Engineering

Projects

2023/06 – present

CommuteShare

I worked on CommuteShare, an application that facilitates connections between private car owners and working individuals traveling along the same route to work. As part of a team of four, I contributed to the project. For the backend development, I utilized Django, while React was employed for the frontend development.

2023/02 – 2023/03

Chatroom

2022/11 – 2023/01

Course Management

I developed a course management application using Springboot, enabling users to perform fundamental CRUD operations.

Education

2019/01 – present
Nigeria

B.Tech Agricultural and bioresources Engineering
Federal University Of Technology

2018/04

WASSCE Certificate
Royal Comprehensive School

Certificates

- The University of Reading(Henley Business School)
Business management and Entrepreneurship, April
2023
